an act of mail art is a gesture of
"attention and appreciation."

An oddish shape mail art
for you. Years ago people
Would send these little view
Finders through the post-naked
instead of post cards while on
holiday. I didn't chance it!
Still working on book! Best wishes

ocketART

ocketART is a project that travelled on my
for at least two years before seeing the
light. I'd bought the material and prepared
few demos, but never had the will to go
ward with it. It's nothing new, but
ically an association of ideas from other
tists. And now this project is running since
bruary of 2009.

Although these pocket art objects cannot be
uly branded as ARTS or ACEOS, mainly because
f its size, it's also true that they work
retty well as such. Real ones measure
5x3.5" (6.35x8.89cm) and mine are smaller,
around 4.9x8.1cm can be an it'sy
bitsy bigger.
