# ABOUT

Mail Art, this unknown... Cinderella, but at the same time a thorn in the side of Contemporary Art, Mail Art has shuffled the cards and attempted to undermine, and in some cases even succeeded, the so-called official system – artwork , exhibition, marketing – which was so broken. The rules have been brought into play.

Mail Art, quintessence of creative communication, already "felt" by the Futurists but not only, also by Surrealists, Dadaists (how can we forget the "timbral" works of Kurt Schwitters) and then touched upon by the Fluxus and some adherents of Pierre Restany's Nouveau Réalisme.

Mail Art with a strong vocation for social and ecological commitment, always against war, against violence wherever it manifests itself, as highlighted in the past by the Solidarte, Shadow Project, United for Peace projects, ...

All this had an initial explosive moment: the brilliant idea of RAY JOHNSON "the most famous unknown artist of New York" of the New York Correspondance School... the Big Bang of Mail Art! From that moment on, Mail Art has spread throughout the world, involving thousands of artists. And it is precisely for this reason that at the end of 2022 I launched the idea of dedicating October 16th (Ray Johnson's birthday) to Mail Art with M.A.D. Mail Art Day, the International Day of Mail Art, through the sending of one of Ray's famous Add & Send Backs, asking the artists to intervene and send back to the sender and since then the responses from the great "auditorium" of Mail Art have been hundreds.

On OCTOBER 16th SIMULTANEOUSLY many SITES, BLOGS, FB PAGES of Museums, Foundations, art magazines and artists will insert or publish the works received from around 300 international artists with the relative video catalogue, in order to create A GREAT INTERNATIONAL COLLECTIVE EVENT OF MAIL ART to remember this figure of the culture of the 20th century that I have rightly defined, as well as Shozo Shimamoto, GAC (Guglielmo Achille Cavellini), Pierre Restany, Bruno Munari, Piero Manzoni, Marcel Duchamp... INFINITE!

ARTE POSTALE

## Biograph

Ruggero Maggi was born in Turin, Italy in 1950. Today he lives in Milan. Maggi is an Italian artist who got involved with the mail art network in 1975. He had been involved in visual poetry starting in 1973.

His interests are: visual poetry (since 1973), copy art, artists' books and Mail Art (since 1975), laser art (1976), holography (1979), x-ray art (1980) and chaotic art, based on the theory of chaos (since 1985). Since 1975 Maggi had been arranging several Mail Art events and projects. In 1979 he organized the first Mail Art show in Milan and the following year he did his first Mail Art project "Amazonic Trip" (dedicated to Abel Luis, E. A. Vigo's son).

He had been shown in several exhibitions around the world. He participated in the 49th Biennial in Venice in the project "Poetic bunker" and in the Sao Paulo Biennial (1980). Since 1985 he has also been involved in chaotic art based on the study of chaos, fractals, entropy, etc. One of his projects entitled "United for the peace" was inspired by the Malvinas War. He worked with John Held on the Shadow Project to commemorate the Hiroshima Holocaust.

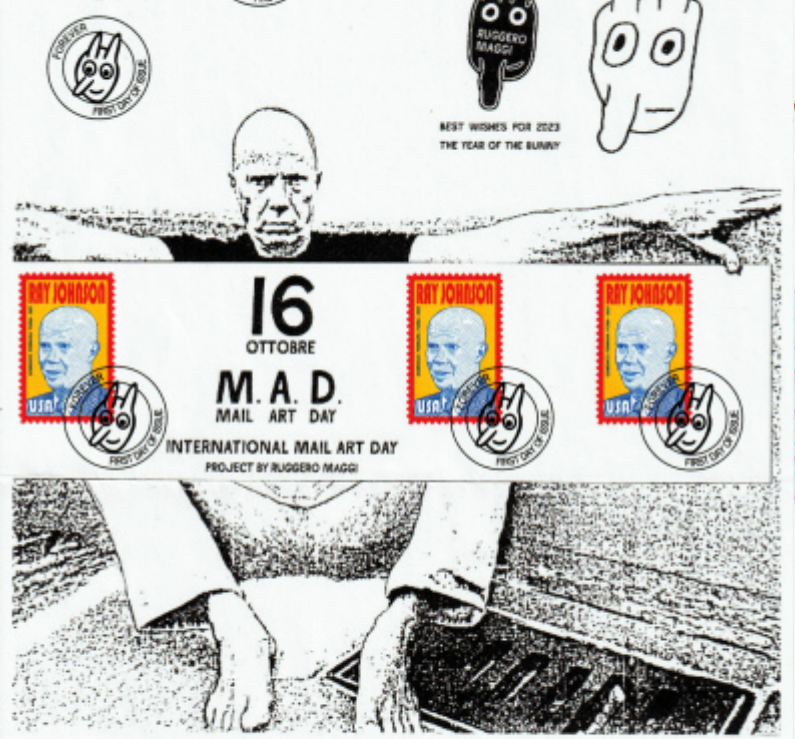

In 2007 he was curator of the 32nd Biennial in Venice and showed his project "Camera 312 - promemoria per Pierre Restany". In 2008 he was curator of the project "Depth 45 - Michelangelo at work" and in 2009 he arranged a site-specific installation on the occasion of the 20th anniversary of the Fall of the Berlin Wall.

About his AMAZON Archive, Maggi states "I decided to found an international archive dedicated to artistic projects and works about Nature in a general way and about Amazon in a specific one"

According to Pierre Restany, "Truth is the fundamental criterion of Maggi's aesthetics" ([www.ruggeromaggi.it](http://www.ruggeromaggi.it)). His fanzine is entitled Playcare.

del disegno e della parole. Passaggio di un bambino di pochi anni che il nome magico del Vajont che cancella tutto sulla desolazione che lo circonda, un senso di complicità, di essere con lo stesso vento quel passaggio memorabile. Una chiave di essere ricostituiti.

Il fronte di esperienza concettive e di esiti è variato nel corso di un progetto che, oggi, ha ricominciato ancora al margine della vita. Un progetto di vita e di morte. Ma rendere visibile questi ricordi, la memoria che il Vajont è un fatto di vita e di morte con quella consapevolezza umana che è un dimorphic.

La biografia dell'artista, Giorgio Vajont, è un progetto che ricomincia.
