TESTIMONIALS

The man is a creative genius!! I sent him the most basic of book starts to do with as he wished. He's given it a visual narrative above and beyond anything I thought I may receive back. What an absolute treasure I now own.

I received my parcel with a cutout window revealing the stamps which have been franked! So now it appears the book travelled naked through the post! Thank You very, very much Rúben!

this project was sure fun to watch come together, what with the collab, the book loot, the posting/cancelling and packaging innovations...
